

SITE SUPERVISORS SAFETY TRAINING SCHEME (SSSTS) 2-Days

Site Supervisors Safety Training Scheme (SSSTS)

Construction skills and construction site safety need to go hand in hand and made a priority to encourage improved work skills and reduced accidents and injuries.

Through completing this CITB course, supervisors will be provided with an ability to understand health, safety, welfare and environmental issues, as well as their legal responsibilities relevant to their work activities. It will highlight the requirement to promote health and safety to supervise effectively.

This is a highly interactive course taught through case studies, classroom discussion, group work and individual or group presentations. Some self-study outside the course will be required.

Build UK recognises this course as meeting the required standard for all supervisors working on Build UK sites.

This SSSTS Course covers a wide range of key areas, such as:

- The occupational health problems within the construction industry, and how site supervisors can address them
- How health and safety law is structured
- How to properly carry out risk assessments and understanding the need for method statements
- How to carry out effective site inductions, toolbox talks and method statement briefings
- The importance of both proactive and reactive monitoring
- How to intervene in a timely manner when bad practice is identified.

On successful completion of this course you will gain the CITB SSSTS Site Safety Plus Certificate – valid for 5 years.

Who is it for?

The course is designed primarily for individuals with supervisory responsibilities on a construction site. This course is ideal for:

- Site Supervisors
- Team leaders
- Foremen
- Gangers
- First line managers.

Learning Objectives

By the end of the course, the delegate will:

- Have gained knowledge and skills in the Health and Safety at Work Act
- Understand how to manage day-to-day challenges
- Have a greater understanding of why they are carrying out their identified duties and what is expected of them on site
- Know how to better contribute to the safety of the workplace.

Course Content

The content covered by the course includes:

- Fire prevention & control
- Control of hazardous substances
- Construction design management regulations (CDM)
- Working at height
- Personal Protective Equipment (PPE)
- Manual handling
- First aid.

Pre-requisites

The following pre-requisites are mandatory:

- To be able to read, write and understand English to a good level. Please contact us if you have any concerns in this area.
- You will need to provide a valid photographic ID on all days of the training such as a copy of your passport or driving licence.

How is the SSSTS is assessed?

Full attendance is mandatory. Delegates will attend an exam at the end of the training, consisting of 25 multiple-choice questions selected by CITB. Delegates are also required to contribute throughout the course and will need to complete a toolbox talk, case study exercise and trainer review.

The Site Management Safety Training Scheme needs to be taken again within the 5-year period through the SMSTS refresher course option. If this is not done, then the Site Management Safety Training Scheme will need to be taken again in full.

What is included in this course?

- Highly experienced Instructor
- All courseware & classroom materials
- Assignments
- Multiple-choice exam
- CITB SSSTS Site Safety Plus certificate on passing exam.

Group Courses

Group courses can be delivered on-site at your premises or at a local venue. In-house training offers advantages over booking public courses including:

- Cost savings
- Avoidance of travel expenses
- Tailoring to meet specific needs.
